

Become a Cancer Navigator Sponsor

San Diego County Cancer Navigator is a unique program which supports cancer care through its HelpLine and website. Assisting thousands of San Diegans, especially the uninsured and underinsured, we invite you to join us in helping to serve our community. Your contribution will enable us to sustain and expand our services to reach more patients and their families, providers, and the public to share potentially lifesaving information. Here are some comments from our callers:

“Cancer Navigator made it possible for me to receive my medications because Medi-Cal didn’t cover my type of medication that I needed. You guys are saving my life. Thank you.” ~ Breast Cancer Patient

Cancer Navigator “was a wonderful source of information when I knew nothing about my cancer. It was the basis for my search on my cancer. Thank you!” ~ Lung Cancer Patient

“Thank you for helping me follow-up on my test results and also in getting the billing changed for the mammogram. Thank you again for all your support and concern.” ~ Breast Cancer Patient

“I think what you and Cancer Navigator do for people is just as important as what the physicians do to help heal patients with cancer. You’ll never know how much I appreciated your help during a difficult time.” ~ Life Partners: Breast Cancer Patient and Prostate Cancer Patient

Your Cancer Navigator Sponsorship will help ensure sustainability for the program.
